

## BUYING GUIDE

# DYNAN

## Storage series

### DESIGN

Monika Mulder

### CARE INSTRUCTIONS

Wipe clean with a soft cloth dampened in water and a mild washing-up detergent or soap, if necessary. Wipe dry with a clean cloth.

### GOOD TO KNOW

The recommended maximum height for stacking DYNAN modular shelf units is 176 cm.

### SAFETY

This furniture must be fixed to the wall with the safety fitting provided to help prevent it from tipping over if a child climbs or hangs on it. Different wall materials require different types of fixing devices suitable for the walls in your home (not included).

Tight corners and cramped spaces – almost anything is possible with modular DYNAN series. You can build your storage vertically or horizontally and add on extra shelves to make the most of your space. Adjustable feet make it possible to compensate any irregularities in the floor. DYNAN furniture family provides a flexible storage that is practical and creative – and it works for both small or large bathrooms and all across the home!

All the products (shown here) may not be available at the store. Please contact the staff or look at [www.IKEA.co.id](http://www.IKEA.co.id) for more information. For more detailed product information, see the price tag and the Internet. All units require assembly. IKEA Indonesia reserves the right to adjust our prices, to correct price errors or misprints according to any changes beyond our responsible control. IKEA Indonesia tries to ensure that all information stated is correct at the time of publishing.

# COMBINATIONS

The combinations below are examples of possible solutions. For more sizes and combinations, have a look below to see all parts.

When you have picked a solution to suit your needs, make sure to measure your wall space to secure that it fits well in your bathroom – or anywhere across the home. For sink installation, consider the position of your pipework when planning the layout for your new bathroom storage.

Start with installing the shelves or cabinets from the bottom up. Each shelf unit or cabinet includes wall mounting safety fittings to fasten your solution on the wall. Check the level of your shelves when mounting, and adjust if necessary.
